

## Dancewear Requirements

Hair for girls should be in a neat bun with all hair off the face. The use of hairnets and heavy hairpins makes it much easier to keep the bun neatly in place. Children with short hair should wear a securely attached hair band that will keep all hair completely off the face. This is important for the student so that all movement can be done without any fear of hair getting into the eyes during turns and jumps.

Ballet shoes are made in either leather or canvas. All students are required to wear leather shoes for all performances. All girls must wear pink ballet tights, pink ballet shoes with elastics. The reason for a class being in a uniform outfit is to allow the teacher to focus on the child's technique. Students may wear different styles of same color leotard when there is not a guest teacher or a parent viewing class.
